PUTTING THE FUN BACK INTO EDUCATION!

FAMOUS CAVES & MUCH, MUCH MORE

Wookey Hole has been entertaining and educating children for centuries, we are probably the oldest tourist attraction in Britain. Over a thousand years ago a monk from Glastonbury Abbey came here and turned the Witch of Wookey to stone and her petrified effigy remains to this day.

Today Wookey Hole's world famous magnificent caverns deep under the Mendip Hills can be accessed easily and safely. We have made a few changes over the years including a Hand Made Paper Mill, Victorian Penny Pier, and brand new Dinosaur Park and much, much more. Wookey Hole remains the ideal visit-based resource for pupils of all ages.

NEW! Wookey Hole Cave Museum: Discover and learn about 'The Wookey Hole Time Trail'

- The History of tourism at Wookey Hole Caves, up to the present day.
- Celebrating 400 years of paper-making at the Paper Mill.
- The Cave Museum, complimenting the curriculum-based activity books and worksheets.

PUTTING THE FUN BACK INTO EDUCATION!

Whether it be a general fun day out at the end of term or a more specific site visit tied into a particular part of the National Curriculum, Wookey Hole has so much to offer. Covering most subject areas a day out at Wookey Hole can provide an integrated cross-curricular learning experience that is hugely enjoyable for students and teachers alike!
